

Decorator's Nook

Familiar Faces in a Brand New Place

Written by: **Titos Menchaca**

For nearly 22 years, Decorator's Nook, propelled by its proprietress and creative force, Sheila Menchaca has set a standard for home and business décor.

Sheila brings a wealth of talent with the best "dream team" she has ever assembled. Susie Devlin, Linda Severe, Cyndy Milton, Joanne Ashby and Debbie George bring their own various talents to the table. With such a creative force, they were bursting at the seams and needed more space.

Working with Danny, Tom and Angie Bosley, they've designed an ideal workplace in the new Garden Center Plaza. The new store is divided into separate and unique areas of varying appeal. "With 3,500 square feet to play with, plus a huge have-a-seat porch, I'm like a kid that owns the candy store," jokes Sheila. Decorator's Nook provides top quality, cutting edge innovative choices to everyone from do-it-yourself-ers to the client who sets the parameters and allows them to dazzle them with their designs. While design and decorating is our primary focus, we recognize there is a large segment of DIY-ers that need access to resources. The design area will be very user friendly and staff will be on hand for a little guidance when needed.

In addition to the design end, they have created a new section called AK-SEZ-R-EEZ. Wander through each area and be prepared to let your imagination soar. COWGIRLS AND CABINS, a slightly softer and more upscale slant on the wild west or lodge look "cuz that's a little cowboy in all of us."

Delight in COLOURS. Visual feasts of table top lighting, accents and fabrics, whimsical pieces in bright, crisp clean colors guaranteed to make you smile.

Transport yourself in ROMANTICA. Influences embracing the European countryside, Tuscany and Shabby Chic styles that are so warm and inviting. Gentle colors, aged finishes, soft fabrics, special scents, lighting and artwork all work together to create Old World Comfort.

What about occasions when mountaintop weather encourages outdoor living? The GARDEN DISTRICT is a bouquet filled with fun ideas and fountains, wall art, serving pieces, outdoor rugs and creative illumination that lets you, friends and family relax outdoors. All in style, of course.

When you have no idea where to start try ECLECTIC CITY where that unique, interesting, fun, fabulous, cool, crazy and just perfect piece may be inspirational.

"In this business the finishing touches make the magic happen," says Sheila.
